E-Course Guidelines

An e-learning course is essential in the modern era, enabling students to conveniently access education through their digital devices. However, for an e-learning course to be effective, it must be innovative and engaging to capture students' attention. Superior University remains committed to adopting the latest pedagogical approaches to equip students with up-to-date knowledge and skills. The objective of this e-course guideline is to offer faculty members detailed insights into creating interactive e-courses that align with the regulations set forth by the Higher Education Commission (HEC).

The following are the procedure to develops an e-learning course:

Step 1 - General Information

Step 1.1 - University Introduction

Add a mission statement to represent the objective of the university.

Step 1.2 - Welcome Note

Add a welcome note from the teacher containing their email to address student queries.

Step 1.3 - Module

Attach a course module containing course description, PLOs, CLOs, mapping of CLOs and PLOs, assessment policy, weekly lecture plan, recommended book, or any special guidelines relevant to course.

Step 1.4 - E-Book

Provide e-book to the students either in soft form or attach a link (drive link, URL or any other source).

Step 1.5 - Chat / Counselling Hours

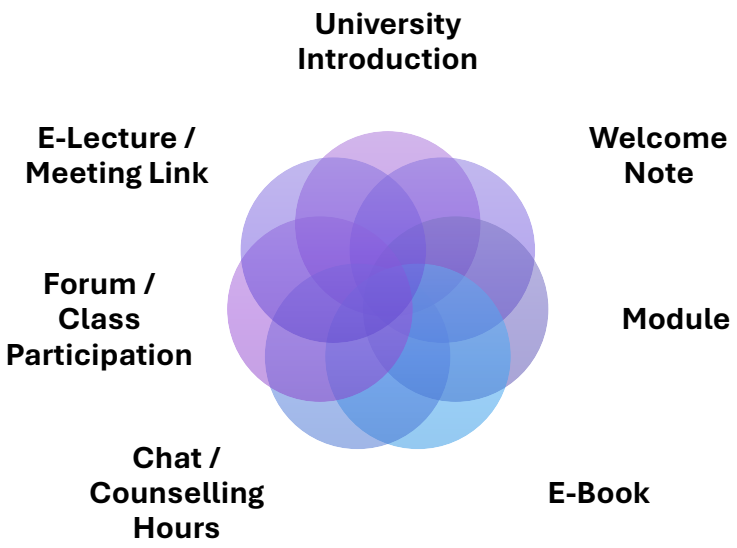
Create a chat session from LMS for counselling hours.

Step 1.6 - Forum / Class Participation

Create a forum having a "standard forum displayed in a blog-like format" so that students can participate the course activities. Forum can be graded or non-graded as per the choice of the teacher.

Step 1.7 - E-Lecture / Meeting Link

Create a meeting link to interact with the students. This link will be used coordinate with the students in each session.



Step 2 - Weekly Lectures

Step 2.1 - Learning Outcomes

Mention the learning outcomes of the lectures. It is recommended that it should be 2-4 to cover the lecture content.

Step 2.2 - Study Material

Attach a comprehensive study material in the form of notes, book chapters, or links (drive link, URL or any other source). This study material must be interactive to grasp the student attention, so it is recommended to use SCORM Packages, or H5P etc.

Step 2.3 - Student Session

An online session must be conducted, 1/3 of the credit hours.

Step 2.4 - Video Recordings

Develop 10 minutes video session to cover the main crux of the lecture.

Step 2.5 – Video Links

Add relevant video links either created by you or from any third-party software (YouTube etc.) in embedded form to include copyrights. These videos must be interactive by adding interactions using H5P so that students can assess their learning.

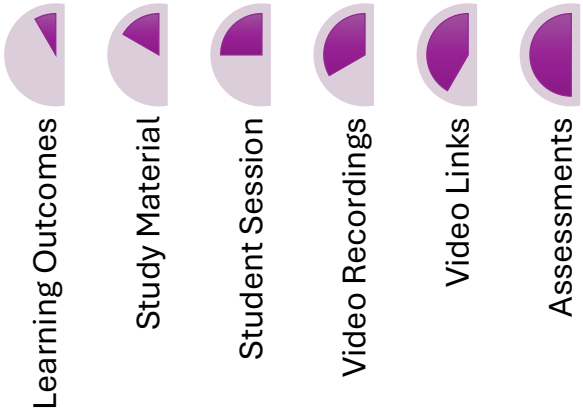
Step 2.6 - Assessments

Create a formative or summative assessment to measure the learning of the students. The assessment should be designed in such a way that the bad practices can be eliminated. It is recommended to build a extensive question bank so that multiple types of randomness

among the questions can be created. Variety of assessments should be utilized to evaluate the students for example, quizzes, assignments, workshops (peer review), and forums etc.

Notes:

1. *Your all points from 2.1 to 2.6 must cover the total credit hour duration of the lecture.*
2. *Regular Semester will be 15-16 weeks of programmed course work, excluding 1-2 weeks for Mid and End Semester Exam*



Step 3 - Student Exams

Step 3.1 - Mid Term Exam

Mid Term Exam will be conducted by following the examination protocols of **Safe Exam Browser** and **Proctoring**.

Step 3.2 - Final Term Exam

Final Term Exam will be conducted in designated examination centers by following the examination protocols including **Safe Exam Browser**, **Security Cameras** and **Proctoring (Physical** and **via LMS**; **both protocols are mandatory)**.

Note:

To improve the outlook of the course use graphics (JPEGs, PNGs or GIFs etc.) for course title, section and topic wise material.

ABOUT AUTOMATION & POLICY CONTROL DEPARTMENT

The Automation and Policy Control Department at Superior University Lahore plays a critical role in managing and optimizing institutional processes by focusing on two major projects: ERP (Enterprise Resource Planning) and ODL (Open and Distance Learning). Through the implementation of ERP, the department streamlines administrative, academic, and financial operations, ensuring efficient resource management and data-driven decision-making. Simultaneously, the department supports the ODL initiative, enabling flexible and accessible education for a diverse student body through the integration of technology-enhanced learning platforms and robust policy frameworks. This dual focus ensures that Superior University remains at the forefront of innovation in both administrative efficiency and educational accessibility.
